

INJUSTICE ANYWHERE  
IS A THREAT TO  
JUSTICE EVERYWHERE

## The Road to Progressive Change

While Los Angeles has always served as a nationwide beacon of social progress, our region faces huge challenges.

- Currently, more young people are arrested and incarcerated in Los Angeles County than anywhere else in the United States.
- Los Angeles has more homeless people living on the streets than any region in the nation and one of the country's most unaffordable housing markets.
- Los Angeles is the country's largest urban oil field.

In 2017, **Liberty Hill Foundation** launched the **Agenda for a Just Future** to tackle these issues by working to end youth incarceration as we know it, fight for a roof over every head, and eliminate toxic neighborhood oil drilling.

We know these are not easy fights to win. But we are making progress. This past year, in communities across L.A. County, organizers, activists, and every day local residents secured major victories on everything from rent control to youth incarceration.

**We Can Do Better.**

Each and every milestone achieved as part of the **Agenda for a Just Future** is due to the efforts of the dedicated community organizations, advocates, activists, and civic leaders who have worked so hard to make change possible.

## New/Expanded Government Partnerships

**Countywide Sustainability Plan Partnership** limits oil drilling and advances rent stabilization

**emPOWER** serves to help low-income communities overcome barriers to sustainable energy usage

**Ready to Rise** provides resources for youth development focused on diversion and prevention

**Stay Housed L.A. Coalition** educates tenants on their rights and connects them to legal services

Thanks to the hard work and tenacity of our community partners, we have made immeasurable progress toward our goal of creating a more just and equitable Los Angeles for all. Through our continued partnerships we will persist in forging new paths to justice in the years to come.
